The New Face of Life Insurance

Thirty-two percent of Americans do not own any life insurance. Of that thirty-two percent, forty-five percent state that they intend to purchase life insurance soon.¹

Purchasers of the "OLD" form of life insurance do not receive any benefit from this insurance; their heirs receive the value of the policy when the insured passes on.

When Life happens will you be prepared?

Studies show that fifty percent of bankruptcies, home foreclosures and the failure of businesses are not caused by death. These life shattering events are caused by the primary income provider's loss of their ability to earn income due to chronic illness, critical illness and terminal illness.

Warming Fleece **ORR Junior High's Himalayan Project** **By Kenneth J. Souza**

Old Rochester Regional Junior High School's Enrichment Program is proud to be part of a new global awareness project.

Students have been working with Sally Hunsdorfer, who frequently makes goodwill journeys to visit the Sherpa people of Nepal. As ambassadors to this project, enrichment students are collecting fleece apparel. This includes hats, scarves, socks, mittens and jackets. They also welcome fleece blankets. Ms. Hunsdorfer will bring these items with her on the next visit to Nepal.

Ms. Hunsdorfer recently screened a video presentation to the students in the ORR Junior High School auditorium and introduced them to Dawa Sherpa from

Mr. Dion was one of several entrants who successfully filled every space on his bingo card and was drawn to receive a total of \$1,000 in gift certificates to participating local merchants. The First Prize runner-up in Aardvark Bingo was Amy S. Mello of Mattapoisett (not pictured), who will receive \$250 in gift certificates. The Wanderer staff wishes to thank all who participated in the game and the merchants who generously provided prizes. (Photo by Kenneth J. Souza).

Nepal, one of the people who will directly benefit from the students' efforts. Both he and Ms. Hunsdorfer explained the limitations of where the people of Nepal live and how important these collected contributions will be.

"It's cool helping other people," noted student ambassador Amanda Frey after the presentation. "It was amazing to learn that they are able to live in such high altitudes."

"I think that the American economy couldn't even live off of \$20 a week," added student ambassador Mariah Allen. "It's amazing how they can just live off so

The Himalayan Project will be an ongoing interdisciplinary project throughout the academic year. The Junior High students will be exploring Nepal through many activities. It will give them a perspective on our global community. Ms. Hunsdorfer will assist them in presentations, hands-on projects, research and public service announcements in the community.

Fleece donations can be dropped off in the front office of ORR Junior High School.

The Enrichment Program students have also assembled an interesting and informative display in the foyer of the Junior High.

Burning Questions **Mattapoisett Fire Department Makes Their Case**

By Kenneth J. Souza

While most people going to the polls on November 4 will either be supporters of Senators John McCain or Barack Obama, members of the Mattapoisett Fire Department

and their support organizations will clearly have another vote on their minds: whether Mattapoisett residents will support their latest push for a new Fire Station Building on the ballot.

After voters shot down a previous Fire Station proposal last year, Fire Chief Ronald Scott and members of his department have been working to scale down the original design submitted by the Maguire Group in 2007.

To that end, members of the Mattapoisett Firefighters' Auxiliary and the Mattapoisett Rescue Association hosted an informational forum about the concerns of the proposed new Fire Station Building Project in the Center School cafeteria on Monday evening, September 29 beginning at 7:00 pm. The purpose of the presentation was to discuss the needs for a new Fire Department Building and make a case for why this proposal makes sense.

About 22 people filed into the Center School cafeteria, passing boxes of new informational brochures and slick, new buttons proclaiming: “Firing Up Support for the New Mattapoisett Fire Station.”

Firefighter Paul M. Kelley served as moderator for the evening. “You can see what our needs are and what our problems are,” Mr. Kelley said. “After the presentation, we’ll be taking questions from the audience.”

With that, Lieutenant James F. Harlfinger offered a PowerPoint presentation on the proposed new Mattapoisett Fire Station project.

Among the key deficiencies with the existing Fire Department facility:

- No safe area for the firefighters to dress into their turnout gear. “When we respond to a call, the first firefighter will do their best to pull the fire engine out to give us a little more room ... that’s slowing down our response time,” Lieutenant Harlfinger said.

- No exhaust ventilation system for vehicles. “When you start two vehicles, there are 54 parts-per-million (ppm) of carbon monoxide expelled,” Lieutenant Harlfinger said. “The acceptable maximum exposure to carbon monoxide, according to OSHA, is 50 ppm.”

- No clean storage area for mandatory first responder equipment.

- No clean storage for breathing apparatus (air

- No area to clean equipment after incidents.

"Some of the stuff we encounter is fluids, oil, gas, chemicals and biohazards," Lieutenant Harlfinger said. "There is no area to wash contaminated equipment. We wash our stuff off the best we can at the scene."

- Station still has asbestos, contained in piping insulation, ceiling tiles and floor coverings.

- Cannot store all the equipment indoors and the life expectancy of all equipment is at the whim of Mother Nature. "In the winter time if there's a snowstorm and we have to get our HazMat trailers out, we're going to have to shovel them out, Lieutenant Harlfinger said. who need help.”

• Nowhere for contaminated firefighters to shower or change. “Call firefighters must take their clothes home to wash off contaminants,” Lieutenant Harlfinger said.

• Lack of administrative space (no space for data storage, plan reviews, inspections, fire prevention, educational materials and other data).

• No maintenance or repair area. Minor vehicle repairs are done on the apparatus floor; hose repair requires moving apparatus outside to perform; and small equipment repairs must move vehicles outside.

• No safe place for firefighters’ gear. “All firefighters’ gear is stored on the apparatus floor next to the engines, only 20 to 29 inches away from moving engines,” Lieutenant Harlfinger said. “The turnout gear takes days to dry after some incidents.”

• Unauthorized access to all firefighting equipment and apparatus. “Ever since 9/11, all Fire Departments and Stations have been locked down — you can’t get in them just for safety reasons,” Lieutenant Harlfinger said. “People used to break in, take the gear and raise havoc in other towns. They also have the ability to disable vehicles.”

• Rodent problems, including a cadre of squirrels, mice, spiders, insects, and other creatures that infest the Fire Station. “I know it doesn’t sound like a lot, but until you’ve put your foot in a boot and squashed a spider, you

can't imagine the feeling," Lieutenant Harlfinger said. "These critters like to dine on our turnout gear. We can't keep them out because of all the openings in the building."

- Cannot regulate heat in the building. "In the winter the doors don't close all the way," Lieutenant Harlfinger said. "The building has settled, so the wind blows underneath the doors and through the window sills."

- Limited parking. "The department can safely park five or six vehicles for firefighters responding to calls," Lieutenant Harlfinger said. "All others must park at Cathay Temple or behind the station."

- No area to wash our turnout gear. "Right now, turnout gear that must be cleaned is taken to another town to be washed, dried and returned," Lieutenant Harlfinger said.

- Station's window sills are rotted out and the windows are not efficient. They rattle and are only single-pane glass.

- One non-handicap accessible bathroom.
- Building is not handicap-accessible, so a person with disabilities cannot enter the building.

With the Mattapoisett Fire Department responding to anywhere between 400 and 600 calls a year, Chief Scott said the job has become a lot more demanding — even for a call department.

"We do fire suppression, fire prevention and fire education," Chief Scott said. "People are getting smarter and know more of what not to do through our efforts. We have the Fire Safe program in the schools. We just don't squirt water anymore. When people say: 'All you need is a garage, that's not true.'"

As the floor was opened up to questions, the big question — *how much?* — still didn't have a definitive answer. But Chief Scott said even though they've scaled

down the prior proposal a bit, given the increase in building costs and materials, he still expects it to be close to the previous \$4.2 million price tag.

"We're crunching the numbers now," Chief Scott said. "You'll know what it is before going in to vote. My own personal thought is the price will either be the same or go up."

"We're using a conservative 10 to 15 percent cost estimate right now," added Selectman Jordan Collyer. "The figure \$4.2 million is a good rough estimate with the scaling down the Maguire Group has done. The \$4.2 million isn't just for construction. We have to have a 10 percent contingency in place and we've factored in design and engineering costs. We want the town to be voting on

When asked what will be done about the existing Fire Station, Selectman Collyer noted the board has already agreed to getting an appraisal of the building in the hopes of selling it off.

"The Board of Selectmen has unanimously agreed to get a fair market appraisal of the current Fire Station ... and we plan to sell the building," Selectman Collyer said.

Chief Scott and Lieutenant Harlfinger encouraged everyone to attend one of two upcoming Open Houses planned at the Mattapoissett Fire Station — the first on Thursday, October 9 from 6:00 to 8:00 pm and the second on Saturday, October 11 from 1:00 to 3:00 pm — to witness some of the issues raised during the forum firsthand.

They also wanted to remind everyone to vote for the referendum question on the Tuesday, November 4 election ballot. If approved, the project will then go back before Town Meeting in May 2009.

organization that promotes camaraderie, sportsmanship and self-esteem for kids between the ages of seven and fifteen through the team building that is football.

"It's fun seeing things come together here in week five of the season," said Tom Flynn, the organization's President. "When we get together at the end of summer for our first practices, you're just trying to get the kids to stand in a straight line. Now here we are five games into the season and they are running real football plays and recognizing game situations and making plays. It is really fun to watch and gratifying at the same time."

Beginning with their first meeting in October 2005, Old Rochester Youth Football and Cheerleading has grown from plan to an established member of the Rhode Island and Southeastern Massachusetts, also known as RISMA, Pop Warner Football and Spirit Conference, fielding four teams consisting of over 150 players and cheerleaders. Mr. Flynn credits the work of the volunteers, the parents, and the many donors who have given of their time and money to support ORYF. The team also receives support from other areas of the community with Old Rochester Regional High School Head Coach Henry Quinlan coming to the team functions to offer his support and members of the Tabor Academy Football team working as volunteer members of the yard marker chaingang during ORYF home games.

"The big thing the past two years is the support we have gotten from people who want to coach," Mr. Flynn said as he pointed towards the sidelines of the rugged old ball field behind the Oxford School in Fairhaven, where the Bulldogs swept all four of their games this past weekend. Dressed in sharp matching black and red coaching outfits were six men who helped to lead the Pee Wee team to a 14-0 win over their Route 6 rivals.

The coaches continued teaching the boys through-

out the contest leading them with encouragement rather than punishing them verbally when a play was missed. "It's really tremendous, this year we have six or seven guys coaching each team," Mr. Flynn said. "I give them all of the credit. They do a great job."

Also present on the sidelines were some of the player's mothers, like Charlene Mello, who made sure all of the athletes stayed hydrated, offering water to them as they came off of the field for breaks between plays.

As Mr. Flynn spoke several players from the victorious Junior Pee Wee team gathered around him, all basking in the glow of the day's win. "These are the guys you should be talking to," he said as he gave Riley Johnson, number 66 and an offensive guard and defensive tackle on the Junior Pee Wee team, a pat on the shoulder pads. "This is my second year overall. It is really fun, even the practices," Mr. Riley said as he was joined by line mate and defensive nose guard Colin Flynn who said with pride, "I've played all three years. I'm a veteran!"

More important than the number of games won and lost is the sense of good citizenship and team play that Pop Warner Football instills in the young people who participate in it. To be eligible to play and cheer, boys and girls must maintain their good academic standing. Teams are divided by both age and weight for children between the ages of seven and fourteen. The league also requires that all players enter the game for a designated number of plays. ORYF seeks to exceed those standards and strives towards teaching its players and cheerleaders good sportsmanship and the fundamentals of the game, cheerleading and dance in a positive environment that builds confidence and physical fitness. To minimize the time spent on the field during the school year, practices are limited to three days a week with the majority of games being held on Sundays. Participation is open to any resident of Mattapoisett, Marion, Rochester, or any other town not currently affiliated with a Pop Warner team.

Riley Johnson's father Pete had this observation of Coach Flynn as the latter tried to humbly deflect any praise from himself: "It took someone with vision like Tom Flynn here to come into town and say let's get this thing together and make it happen." Mr. Flynn, refusing

Tri-Town Selectmen's Meeting

September 24, 2008

By Kenneth J. Souza

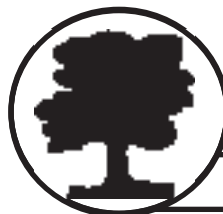

A joint meeting of the Tri-Town Boards of Selectmen was called to order in the Media Room of Old Rochester Regional High School on Wednesday, September 24 at 6:30 pm by Mattapoissett Selectmen Chairman Steve Lombard. Also present from Mattapoissett were Selectman Jordan Collyer, Selectman George Randall, and Town Administrator Michael Botelho. Present from Marion were Selectmen Chairman Jonathan Henry, Selectman Roger Blanchette, and Selectman Steve Cushing. Present from Rochester were Selectmen Chairman Richard Nunes, Selectman Brad Morse, and Town Administrator Richard LaCamera. Absent were Rochester Selectman Dan McGaffey and Marion Town Administrator Paul Dawson.

The board first met with Old Rochester Community Television (ORCTV) Executive Director Kim Miot to provide an update on the progress that has been made since the last Tri-Town Selectmen's meeting.

"Both Verizon and Comcast met their timeframe ... and all three channels for both systems are fully operational," Ms. Miot said. "That included the lighting up of the educational channel (ED-TV), and the Rochester dedicated government channel, which didn't exist before. For all residents, businesses and town departments we offer classes for producing their own shows ... and starting in October we'll be running Public Service Announcement (PSA) shoot days. Residents and non-profits can come in and shoot promotional PSAs at no cost."

Ms. Miot also noted that on the educational channel, all school principals have been given access and passwords to update the bulletin boards remotely.

"We're really excited to have the educational channel up and running," Ms. Miot said. "ORCTV pro-

vides a grant to the school which funds two teachers who are also responsible for coordinating programming for the channel."

"Channels 18 and 37 are very much works in progress," ORR School Superintendent Dr. William Cooper said. "I'm hoping the momentum for use of this facility will continue as things progress. Kim has done a wonderful job and the ORCTV board has been very supportive. It's going to depend on our ability to produce new material to help program and fill the channels. The fact that all three boards supported the contracts with Comcast and Verizon is terrific. You've offered a wonderful opportunity to the students here."

"I appreciate the efforts made by ORCTV and the school in making this service available to the students," Chairman Lombard added.

The boards next heard an update on the Mattapoisett River Valley Water District update from Selectman Randall.

In June the Mattapoisett River Valley Water District (MRVWD) started up their new \$16.5 million water

Animal Advice

Jay Gould, DVM

Inside versus outside cats

I have a new kitten and I am trying to decide whether to let him out or to keep him as an inside cat. Any thoughts?

Cats that go outside are exposed to a multitude of dangers. These include cat fights, cars, coyotes, ticks and fleas, heartworms and infectious diseases such as feline leukemia virus and feline AIDS.

What can I do to protect my cat if I decide to let him out?

Cars, coyotes, Feline AIDS and other cats are best avoided by leaving your cat inside. Ticks and fleas can be controlled by applying Frontline Top Spot once a month. Heartworms can be prevented by using Heartgard monthly and the risk of Feline Leukemia virus can be minimized through vaccination.

treatment facility located in Mattapoisett. The towns of Fairhaven, Mattapoisett and Marion all contributed toward the capital costs of the facility and realized an overall savings of some \$4.9 million.

Next, Selectman Nunes provided an update on the recent Casino Task Force meetings he's been attending.

"Basically, the way it stands now is the Wampanoag Tribe has put in an application to put their land in trust, and if approved they will be granted a casino in Middleboro," Selectman Nunes said. "The Task Force has been trying to basically be able to work with the governor on this. One of the things that came out of the last meeting was maybe the communities should put a non-binding referendum on their ballots as to whether they support a casino in Middleboro. We feel New Bedford would be a more suitable site — it has access to the highway, it has access to the ocean, and it will have a railway at some point. But it also has a number of people who could work at the casino resort. Middleboro, in my own opinion, is not suited for such a project."

While the Task Force has not taken an official stance to support New Bedford over Middleboro, Selectman Nunes noted they aren't supporting a casino per se. They are simply looking at the different proposals to weigh the pros and cons of each.

"I'm not a member of the Task Force, but I don't see the difference between New Bedford and Middleboro," Selectman Henry said. "I have to agree with you personally that New Bedford seems to want it."

"Personally, I think the Task Force really should take a position rather than avoid it," Selectman Nunes agreed.

"Having served as the interim Town Administrator in Middleboro last year, I can tell you that the project

is moving forward," Chairman Lombard said. "The problem is Middleboro has not been allowed representation on the Task Force."

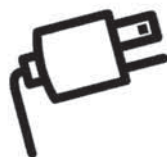

"I really have to agree with your observation that Middleboro not being part of the process is a bit ridiculous," Selectman Henry said. "Maybe this body can draft a letter saying we support having someone from Middleboro present at the table. Leaving them shut out seems counterproductive to the process."

"I don't see (the casino) affecting us at all in Marion or Mattapoisett, but I can see it affecting Rochester because you're right next door," Selectman Blanchette said.

"If it comes to Middleboro, we have Route 105 that runs through Middleboro and Rochester," Selectman Nunes said. "I can see the potential for increased traffic from this proposal."

"To question Middleboro's negotiations with the Wampanoag Tribe is out of the question for us," Selectman Collyer said. "They are the host town and it's going to directly impact their infrastructure. If you take Connecticut and look at the towns surrounding the casinos, they are all call Fire Departments — they have even less than what we have. And many don't even have Police Departments, they have resident State Police force."

"My issue is if a town feels it's impacted, they should be able to provide input," Chairman Lombard said. "You're saying Middleboro is not the place for Roch-

ester, but New Bedford is. Well, New Bedford is closer to Mattapoisett and Marion. But I don't see anything coming out of New Bedford one way or the other. I don't think anything is going to move too quick out of Middleboro because they're so deep in getting the land in trust."

Under Old Business, the boards discussed the status of the wind power studies being conducted at the Mattapoisett Landfill and other sites around the tri-towns.

"At the outset of this three-and-a-half years ago, we suggested entering into a regional agreement with towers at ORR High School and we were told it wasn't feasible," Selectman Collyer said. "They suggested we set up a test (tower) at the Mattapoisett Landfill. We'll see what they bring to it."

"We did get a report saying the (ORR) site did fail," Selectman Blanchette said. "Now they're going to retest at a higher elevation."

Under New Business, Selectman Henry advised the boards that there is a new County Administrator, former Falmouth Selectman Troy Clarkson, and he is anxious to help the towns in any way possible.

The boards agreed to hold their next regional Tri-Town Selectmen's meeting on Thursday, December 11 at 7:00 pm in the Marion Town House will the Marion Board of Selectmen hosting.

At 7:35 pm the boards voted to go into Executive Session to discuss collective bargaining issues and would thereafter adjourn for the evening.

ORR swept all six matches in the win over Case with **John Coucci** and **Evan Bissonette** each winning 7.5 to 1.5 to lead the way. ORR ran their winning streak to ten in a row the next day as they won 39.5 to 14.5 over Fairhaven at the Rochester Golf Club. **Brannon Oldham** and **John Coucci** each shot an even par 34 to lead the Bulldogs scoring. rector Tammara Van Ryn. "The accreditation seal lets the public know that the accredited land trust has undergone an extensive, external review of the governance and management of its organization and the systems and policies it uses to protect land."

"Sippican Lands Trust's accredited status demonstrates our commitment to permanent land conservation," said Jessica Whittaker, Executive Director. "Our land trust is a stronger organization today having gone through the rigorous accreditation program."

Sippican Lands Trust was founded in 1974 to preserve open space for the inhabitants of the Town of Marion and currently protects about 1200 acres. The ultimate goal of the Trust is to protect wildlife and natural resources as well as history, heritage and beauty of the area.

Land is America's most important and valuable resource. Conserving our land helps ensure clean air and drinking water, food security, scenic landscapes and views, recreational places, and habitat for the diversity of life on earth. Across the country, local citizens and communities have come together to form land trusts to save the places they love. Community leaders in land trusts across the country have worked with willing landowners to save over 37 million acres of farms, forests, parks and places people care about. Strong, well-managed land trusts provide local communities with effective champions and caretakers of their critical land resources, and

safeguard the land through the generations.

Thirty-nine land trusts were awarded accreditation at a special ceremony at *Rally: The National Land Conservation Conference* in Pittsburgh, PA in September. Rally, hosted by The Land Trust Alliance, is the largest gathering of land conservationists in the country. Accredited land trusts are able to display a seal indicating to the public that they meet national standards for excellence, uphold the public trust and ensure that conservation efforts are permanent. The seal is a mark of distinction in land conservation.

"We are proud to display the accreditation seal as it demonstrates to our donors, members, and community that we take our ethical responsibility of running our land trust very seriously," said Board President Chris Bryant. ORR Merit Scholars

Assistant Principal Michael Devoll of Old Rochester Regional High School announced recently that **Connor Bost, Tyler Frantz,** and **Anthony Pettinato** have been named Commended Students in the 2009 National Merit Scholarship Program. A Letter of Commendation from the school and National Merit Scholarship Corporation (NMSC), which conducts the program, will be presented by the principal to these scholastically talented seniors.

About 34,000 Commended Students throughout the nation are being recognized for their exceptional academic promise. Although they will not continue in the 2009 competition for National Merit Scholarships, Commended Students placed among the top five percent of more than 1.5 million students who entered the 2009 competition by taking the 2007 Preliminary SAT / National Merit Scholarship Qualifying Test (PSAT / NMSQT).

"Recognition of academically talented students and the key role played by schools in their development is essential to the pursuit of educational excellence in our nation," said a spokesperson for NMSC. "The young people named Commended Students have demonstrated outstanding academic potential by their strong performance in this highly competitive program. We hope that

"My wife, who is a physician, told me to go to Marion Family Chiropractic. I'd had sciatica from my low back to my foot for 30 years. I had tried everything: cortisone shots, physical therapy, acupuncture. I really thought I was going to have to live with it. My sciatica is now completely gone!"
— Dick Moniz, Rochester

"I came to Marion Family Chiropractic because I was in more pain than I can normally handle. I now have a more pain free life, plus I have more knowledge of how the body functions in order to keep pain free."
— Tom Gibbs, Marion

"I was unable to lift my arm because of severe shoulder pain, and had been to an orthopedic surgeon for a cortisone shot. The pain returned when the cortisone lost its effect. I saw Dr. Crabbe, and she performed a correction that immediately relieved the pain. The shoulder has remained pain free."

Get in the Best Shape of Your Life, Reduce Your Stress, and Feel Better Than You've Ever Felt – Faster Than You Ever Thought Possible!

Busy Professional Discovers the Antidote to Workout Boredom:

"I wanted something that would not only challenge me physically, but would motivate me to stay in shape and that I could continue to do for the foreseeable future. I am thrilled to say that I have found all that and more since joining Nexus.

At 43 years old, I thought that I might be surrounded by guys half my age all training to be the next Ultimate Fighter. I was also concerned that my busy schedule would not allow me to get the most out of the program. Any concerns I had were quickly eliminated after my first visit.

As I looked around the gym at my first class, I noticed a wide variety of students, men and women, 20 some-things to 40 some-things and above. Everyone was very friendly, eager to introduce themselves and make me feel welcome.

Since joining Nexus, not only am I in the best shape of my life, but also my overall health has never been better. My cholesterol's under control, my confidence is higher than it's ever been and my ability to deal with stress has been improved dramatically. I've found much more than a gym, but a lifestyle I can dedicate myself to, which will keep me strong and healthy the rest of my life."

Her oil pastel landscapes are painted with vivid colors and intense marks. Ms Gilmore explains, "How I feel is translated into visual elements such as color, shape, texture, patterns, which then transform the landscape. The imagery becomes the translation of how I feel about

MOVIE REVIEW

Rock the Vote

By Rob Gonsalves
www.efilmcritic.com

Slacker Uprising. Starring and directed by Michael Moore.
Running time: 98 minutes. No MPAA rating.

What, you may ask, is the point of a movie about Michael Moore trying to get out the vote back in 2004? Didn't this side lose? What would such a movie offer besides a feeling of impotence — a feeling that, despite the enthusiasm and best efforts of so many people, Moore's rivals got in again? *Slacker Uprising*, Moore's new film, which he has made available for free download at a variety of online outlets, is a bit more than that.

In the weeks before the 2004 election, Moore tours the battleground states, hitting more than sixty cities in a crusade to get the fabled disaffected youth off their couches and into booths. Everywhere he goes, no matter how conservative a place would seem to outsiders, he gets a rock-star welcome, standing-Os, women asking him to sign their boobs. It's a college tour, of course, so a lot of the crowds are predisposed to be in his corner; Moore isn't appearing at NASCAR races or NRA rallies. But the point is made: anyplace you go, you'll find hidebound old rubes and you'll find smart young people. Moore goes to the smart young people to exhort them to get on the ball, get out and make a difference.

Slacker Uprising sort of takes the form of a concert film like *The Secret Policeman's Other Ball*, the Amnesty International-sponsored charity event studded with comedians and musicians. Moore brings in folks like Steve Earle, Eddie Vedder, Tom Morello, REM, Joan Baez, Viggo Mortensen, and Roseanne Barr (who, in the film's possible highlight, delivers a gloriously crabby routine dripping with irony). A lot of the time, these performers are surprise guests, so it's not as if Moore lures his crowds with the promise of hearing Eddie Vedder cover Cat Stevens. But the focus always swings back to Moore, the right's favorite baseball-cap-wearing punching bag, as he gets the audience riled up with call-and-response. (I don't remember his being this aggressive a speaker when I saw him at a local college in

2003; but then, we're not a battleground state and it wasn't election time.)

Make no mistake: *Slacker Uprising* — previously titled *Captain Mike Across America*, in case you were wondering what happened to that project — will not win over Moore-haters. As he himself says, it's one for the fans. If you're on the fence about him as an onscreen persona, if you don't disagree with his general message but find him a self-aggrandizing bloviator, you should probably give this one a pass. But I can't deny there's something heartening about seeing thousands of people responding so happily to Moore's sane, actually unremarkable themes. Moore really only looks like a radical in unradical times. He's not saying anything that anyone with a brain and a conscience can't get behind on some level: Hey, Americans deserve health care! Say, shouldn't we make sure that putting our soldiers in harm's way is absolutely necessary before we start a war? Hell, why is that small percent of people getting all the money you're not making?

You could look at *Slacker Uprising* as the record of a failure: The slackers rose up, and Bush still won. But not by much. And, as we're told at the end, a record 21 million young voters turned out. Kerry only lost by a hair, and he was the most boring candidate the Dems have had since Dukakis. Obama, by contrast, gives young Democrats something to vote for instead of just vote-the-shrub-out motivation, and a lot of kids who were 14 last time turned 18 this year. The slackers may yet triumph.

The Marion Art Center, located at the corner of Main and Pleasant Streets, has been serving the community for over 40 years. The galleries are open to the public Tuesday through Friday, 1:00 to 5:00 pm; Saturday 10:00 am to 2:00 pm. Admission is free.

Children's Course

The Marion Art Center is offering a new course for children Grades 4 to 8 in “Singing and Dancing for Musical Theater” on Fridays, 3:30 to 5:00 pm for 12 weeks. There will be a recital performance in early January. The fee is \$150 for MAC members and \$165 for non-members.

Johanna Wickemeyer is the instructor and has performed in professional, school and community theater. Notable theater credits include *Annie* with Trinity Repertory Theatre, *The Music Man* with Star Players of Bristol County, and *Urinetown: the Musical* at Tabor Academy. Johanna is a recent graduate of Tabor and a member of Cum Laude Society for her scholastic achievement. She also directed and starred in her own production of *Indoor/Outdoor* as her senior project.

At the age of three, Johanna started performing and competing as a dancer at Kathy Medina's studio of dance focusing on ballet, tap and jazz. Competition credits include a Gold Medal in Children's Show Dance at the International Dance Organizations competition held in Liptovsky Hradok, Slovakia. During her junior year, she spearheaded and participated in the dance program at Tabor Academy. As she grew as a musical theater performer, Johanna expanded her interests to vocal training in elementary school. She has been taking classical voice lessons for eight years, was a member of the Madrigals singing group and studied music theory at Brown University during the summer. She is currently an intern at Trinity Rep and plans to attend Brandeis University next year.

Johanna will put her knowledge and training to good use in her classes. She will spend half of the time instructing dance and the second half instructing voice. Dance will focus on jazz and tap — styles used in musical theater. Performance technique will be emphasized throughout the course. Students should bring two pieces

SALOME'S STARS

ARIES (March 21 to April 19) You might need to get more facts to help you work out those problems with your new project. As always, a friendly approach shows the charming Arian at his or her persuasive best.

TAURUS (April 20 to May 20) Information is what energizes ambition, and this is a good time for the ambitious Bovine to expand his or her range of knowledge and to be ready for the challenges that lie ahead.

GEMINI (May 21 to June 20) This is a good time to consider making some long-overdue decorating changes at home or in your workplace. A splash of color can help raise spirits, even on the grayest day.

CANCER (June 21 to July 22) Learn more. Earn more. That's the formula for Moon Children looking to expand their career horizons. Investigate the best places to get those training courses you'll need.

LEO (July 23 to August 22) Your creative side helps gain attention for many of your ideas. But don't neglect the practical aspects involved in implementing their move from paper to production. Good luck.

VIRGO (August 23 to September 22) A health problem should not be ignored. The sooner you check it out, the sooner you can deal with it and then move on. Some job advice comes from an unlikely source.

LIBRA (September 23 to October 22) A relationship takes an unexpected shift that could leave you puzzled and hurt. Asking for an explanation could help uncover the reason for this sudden turn of events.

SCORPIO (October 23 to November 21) Your busy schedule has drawn down much of your energy levels. Restore them by spending a well-earned time out enjoying the arts -- perhaps with that special someone.

SAGITTARIUS (November 22 to December 21) Make that presentation with confidence. Remember: When you show you believe in yourself, it helps persuade others that you truly know what you're doing.

CAPRICORN (December 22 to January 19) Although you usually prefer doing things on your own, a group effort might be advisable at this time. Try to keep an open mind about suggestions from colleagues.

AQUARIUS (January 20 to February 18) This could be a good time to reassess some of your recent decisions and see if any adjustments should be made based on facts that you might have just uncovered.

PISCES (February 19 to March 20) An emotionally charged situation creates uncertainty about the future of your relationship. Best advice: Talk things out while there's still time to reach a new understanding.

BORN THIS WEEK: You tend to act on matters of principle despite what others might advise.

LEGAL NOTICES	LEGAL NOTICES	LEGAL NOTICES
LEGAL NOTICE TOWN OF MARION BOARD OF SELECTMEN The following bylaw changes which were accepted at the Marion Annual Town Meeting which convened on May 19, 2008 have been approved by the Office of the Attorney General, and are published herewith in accordance with the current regulations. Claims of invalidity of any of the amendments to the bylaw by reason of any defect in the procedure of adoption or replacement may only be made within ninety days of the second publication (October 2, 2008) or December 31, 2008. Copies of the bylaw may be examined in the Office of the Town Clerk, Town House, 2 Spring Street, Marion, Massachusetts, or they may be purchased from the Town Clerk for \$20.00. Article 21: Amend the General By-Laws of the Town of Marion, Article XXVI (Animal Control), Section 8 (Licenses and Tags) by deleting the second paragraph in its entirety and inserting in place thereof the following: There shall be a fee that is paid by the owner for each license and tag and any replacement tag issued by the Town Clerk. All fees under this section shall be determined by the Board of Selectmen, and may be changed from time to time as they deem appropriate. No fee shall be charged for a license for a dog owned by a person aged 70 years or over Article 23: Amend Article I (General Provisions) of the General By-Laws by inserting the following new Section 5: (a.) The tax collector or other municipal official responsible for records of all municipal taxes, assessments, betterments and other municipal charges, hereinafter referred to as the tax collector, shall annually furnish to each department, board, commission or division, hereinafter referred to as the licensing authority, that issues licenses or permits including renewals and transfers, a list of any person, corporation, or business enterprise, hereinafter referred to as the party, that has neglected or refused to pay any local taxes, fees, assessments, betterments or other municipal charges for not less than a twelve month period, and that such party has not filed in good faith a pending application for an abatement of such tax or a pending petition before the appellate tax board. (b.) The licensing authority may deny, revoke or suspend any license or permit, including renewals and transfers of any party whose name appears on said list furnished to the licensing authority from the tax collector or with respect to any activity, event or matter which is the subject of such license or permit and which activity, event or matter is carried out or exercised or is to be carried out or exercised on or about real estate owned by any party whose name appears on said list furnished to the licensing authority from the tax collector; provided, however, that written notice is given to the party and the tax collector, as required by applicable provisions of law, and the party is given a hearing, to be held not earlier than fourteen days after said notice. Said list shall be prima facie evidence for denial, revocation or suspension of said license or permit to any party. The tax collector shall have the right to intervene in any hearing conducted with respect to such license denial, revocation or suspension. Any findings made by the licensing authority with respect to such license denial, revocation or suspension shall be made only for the purposes of such proceeding	and shall not be relevant to or introduced in any other proceeding at law, except for any appeal from such license denial, revocation or suspension. Any license or permit denied, suspended or revoked under this section shall not be issued or renewed until the licensing authority receives a certificate issued by the tax collector that the party is in good standing with respect to any and all local taxes, fees, assessments, betterments or other municipal charges, payable to the municipality as of the date of issuance of said certificate. (c.) Any party shall be given an opportunity to enter into a payment agreement, thereby allowing the licensing authority to issue a certificate indicating said limitations to the license or permit and that the validity of said license shall be conditioned upon the satisfactory compliance with said agreement. Failure to comply with said agreement shall be grounds for the suspension or revocation of said license or permit; provided, however, that the holder be given notice and a hearing as required by applicable provisions of law. (d) The Board of Selectmen may waive such denial, suspension or revocation if it finds there is no direct or indirect business interest by the property owner, its officers or stockholders, if any, or members of his immediate family, as defined in section one of chapter two hundred and sixty-eight A in the business or activity conducted in or on said property. (e.) This section shall not apply to the following licenses and permits: open burning (section thirteen of chapter forty-eight); bicycle permits (section eleven A of chapter eighty-five); sales of articles for charitable purposes (section thirty-three of chapter one hundred and one); children work permits (section sixty-nine of chapter one hundred and forty-nine); clubs, associations dispensing food or beverage licenses (section twenty-one E of chapter one hundred and forty); fishing, hunting, trapping license (section twelve of chapter one hundred and thirty-one); marriage licenses (section twenty-eight of chapter two hundred and seven); and theatrical events, public exhibition permits (section one hundred and eighty-one of chapter one hundred and forty). Article 24: amend the Zoning By-Laws, Section 9.11.4 by deleting paragraph 4 in its entirety and inserting in place thereof the following: 4. The location of the proposed stormwater management system components with proposed grading, pipe sizes, inverts elevations and rates of gradient shall be provided. Mattapoisett Tree Plantings

The Mattapoisett Tree Committee is planning a fall planting of trees in the town in late October. In conjunction with the town's Tree Warden, Roland Cote, the committee is making recommendations of proposed planting sites and choice of the most desirable tree for each location.

In just this last year, several new trees were planted at the Police Station along Route 6, the Historical Museum, Center School and the War Memorial Park adjacent to the Library.

The Mattapoisett Tree Committee would like to thank Barry Denham and Roland Cote for their hard work in the preparation and planting of these trees.

Generally, each tree purchased and planted costs around \$400 to \$500. Plus there is constant care of each tree such as a water gator which holds 20 gallons of water for the first year's trees. Each tree needs yearly maintenance to maintain its viability, strength and growth.

The committee's goal is to have a fall and spring planting and make the necessary purchases at one time to help defray cost of transportation, etc. The more trees purchased at one time greatly minimizes the cost.

October from dusk until 9:30 pm. Moreover, they will also be open on Sundays throughout the month of October, as well as Columbus Day, and on Halloween from dusk until 9:00 pm. There are all kinds of creatures roaming around and you never know who — or what — you or what you might find there.

As they have every year, they will offer free candy to survivors, and will be collecting used stuffed animals (in relatively good condition) which are donated to the Shrine Club of Southeastern Massachusetts. They in turn, give them to local police and fire departments to give to children who been involved in a trauma.

They will also be collecting pull-tabs from carbonated beverage aluminum cans. Richard says that they are redeemed for their value in aluminum and used to transport patients and their parents from anywhere in the world to the Shriner's hospitals at no charge. Finally, they also will again be collecting monetary donations at the event all of the proceeds of which will be split between the two local hospitals, Boston and Springfield. Both Matt and Richard also wanted to make it a point, that these forms of donation are greatly appreciated and do help a great cause.

The Shriner's Hospitals for Children have provided some of the best medical care in the world to more than 800,000 children with orthopedic problems, severe burns, cleft lip and cleft palette, and spinal cord injuries from some of the leading experts in the pediatric medical field. The expert care provided by the Shriner's Hospitals for Children does not cost a patient, their family, their insurance company, or even the federal or state government(s). All care is provided at no cost, which is made possible by bequeaths and donations given to the Shriner's Hospitals by generous donors, and fundraising projects of the Shriners of North America. It is because of this, that the Shriner's Hospitals are able to focus family centered care and rehabilitation of children, not paperwork for insurance companies, this speeds up the recovery process so that so he or she is able to get back to the normal life of a child.

If you know of someone (under the age of 18) that you think the Shriner's Hospitals may be able to help who

ATTENTION DRIVERS

If you are involved in a collision you have the right to have your investment, your vehicle, repaired at a shop of your choice. Your insurance company may suggest a list of repair shops. Do not be persuaded by this list, it is not a guarantee of quality of services, nor does it limit your options. You want a shop who will work for you and with you to put your vehicle back to pre-accident condition. **COLLISION SERVICES OF MARION, INC.** is a licensed, bonded, registered repair shop with the state of Massachusetts. We work with all insurance companies to expedite your repairs. The important thing to remember is we repair the vehicle for you, our customers, not the insurance companies. So remember, if the need arises, contact **COLLISION SERVICES OF MARION, INC.** to get back on the road.

Tickets are \$50 per person and are available by calling The Women's Center at 508-996-3343.

Fairhaven Movie Series

The Millicent Library's Movie Night is now taking place. Once a month on the first Monday night of the month at 7:00 pm, the library will be showing films free to the public. The theme this time: anti-war films.

"All but one of these films are based on books written by war veterans," said Rob Gonsalves, who coordinates Movie Night. "William Wharton (*A Midnight Clear*) served in World War II. So did Joseph Heller (*Catch-22*). Dalton Trumbo (*Johnny Got His Gun*) didn't serve, but he wrote his book after reading an article about a badly-disfigured soldier. So most of these stories were written by people who'd been there."

Catch-22 (1970), directed by Mike Nichols and based on the famous novel by Joseph Heller, will be screened on October 6. Alan Arkin leads an all-star cast as Yossarian, a bomber pilot who confronts the circular logic of war: if you want to go up and fly bomber missions, you're insane and you don't have to fly; if you don't want to fly missions, you're sane and you have to fly. The movie is rated R for strong violence and brief nudity.

Johnny Got His Gun (1971), written and directed by Dalton Trumbo based on his novel, focuses on Joe Bonham (Timothy Bottoms), a soldier in World War I who has been hit by a shell and has lost all his limbs and his eyes, ears, mouth and nose. He struggles to communicate despite his injuries. The screening of this little-seen parable (clips

from which turned up in Metallica's "One" video) will be November 3. The movie is rated R for brief nudity and language.

The Movie Night series will end for the year with a Christmas movie of sorts. *A Midnight Clear* (1992), starring Ethan Hawke and Gary Sinise, is about a truce between American and German soldiers in World War II as Christmas approaches. The movie will be shown on December 1 and is rated R for combat violence and profanity.

All showings begin at 7:00 pm sharp in the Millicent Library auditorium, accessible through the Walnut Street entrance.

Mattapoisett Lions Club

After another successful Harbor Days, the members of the Mattapoisett Lions Club are ready to start a new year. They meet on the second and fourth Wednesday of every month at the Mattapoisett Chowder House at 6:30 pm.

The Mattapoisett Lions Club is a group of dedicated men and women whose motto is "We Serve and have been serving the community for over 50 years." If you are interested in learning more about the club, please call Club President Joe Rego at 508-763-8707.

I Found the Aardvark!

Each week, hidden somewhere in the pages of *The Wanderer* is a tiny drawing of an aardvark. The little guy you are looking for looks exactly like the one pictured above (but don't put down this page as your answer, there's another one hidden somewhere in this issue).

Once you find the aardvark you can submit your answer online and if you are right you will get Aardvark Points! You can then use these points to get cool Aardvark Prizes!

Each time you find the Aardvark you will also be entered in our monthly drawing for other cool Aardvark Prizes.

If you would like to enter the monthly drawing by mail, send your name, address and phone number along with the issue date and page number you found him in to: Wanderer - I Found the Aardvark, P.O. Box 102, Mattapoissett, MA 02739. Entries by mail will not be eligible for Aardvark Points.

To enter visit: www.wanderer.com and Click on "I Found the Aardvark"
